

ABSTRACT OF THE DISCLOSURE

A piezoelectric structure includes a vibrational plate; a piezoelectric film; the vibrational plate including a layer of a monocrystal material, a polycrystal material, a monocrystal material doped with an element which is different from an element constituting the monocrystal material, or a polycrystal material doped with an element which is different from an element constituting the polycrystal materials, and oxide layers sandwiching the aforementioned layer, the piezoelectric film has a single orientation crystal or monocrystal structure.
